

WORKERS' COMPENSATION

The Board directs that all employees shall be provided workers' compensation coverage while acting in their official capacity as employees of the Board. Should an employee become injured while on duty, said employee shall be entitled to receive the appropriate medical and wage benefits prescribed under state workers' compensation laws and/or appropriate sick leave benefits at the option of the employee. In no case, however, shall the total amount of wage benefits received exceed the total amount of regular salary the employee was receiving at the time of the injury.
