

VOCATIONAL-TECHNICAL SCHOOL

1. In order for students to receive practical vocational training, they shall work on such projects and/or equipment that they bring to school or that they are assigned by the instructor.
2. Projects and equipment assigned to students shall not be in any way competitive to private industry.
3. No project shall be undertaken solely for the purpose of making a profit. All items constructed at the school shall be sold as surplus School Board property according to policy.
