## EarthWatch Institute full paid Teacher Fellowships:

*The Teach Earth USA Fellowship program is based upon the principle that every individual can be involved in creating a sustainable planet, regardless of their level of scientific skill. Each year, we select over 50 teachers from all subject areas to assist scientists on expeditions by collecting data on climate change and sustainable resource management.*

### Common Grant Writing Mistakes

*Not crunching the numbers.* Numbers and data are an essential part of a strong grant proposal. Hard data is needed to back anecdotes about your organization. Include data that shows the impact your have already had and include numbers about expected program outcomes.
