

Oaklawn will involve parents, in an organized, ongoing, and timely way, in the planning, review, and improvement of programs, including the planning, review, and improvement of the school parent and family engagement policy and jointly develop the schoolwide program plan under section 1114(b), except where Oaklawn has in place a process for involving parents in the joint planning and design of the school's programs, the school may use that process, if such process includes an adequate representation of parents of participating children.

Oaklawn will provide parents of participating children timely information about programs, a description and explanation of the curriculum in use at the school, the forms of academic assessment used to measure student progress, and the achievement levels of the state academic standards, and if requested by parents, opportunities for regular meetings to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children, and respond to any such suggestions as soon as practicably possible. We will use our PFA as a parent advisory board to address any needed revisions to our school wide plan based on an analysis of our spring survey results.
