Message from the principal....

It is my honor to announce our 2024-2025 teacher of the year, Mrs. Kristal Eimer! Mrs. Eimer serves as a mentor teacher and is pursuing her Master's degree in Education Leadership.

Winter benchmarking will begin during the month of December. This data helps measure our growth towards our K-3 grade level goals: · All students in K-3 will benchmark or show above average growth in individual literacy goals on fluencies measured with the Literacy Screener by the end of the school year. All students in K-3 will achieve on level status in math skills as measured with the Math Screener (IXL) by the end of the school year. Each student has set a personal goal for the year. Please ask your child about their goals and how they are progressing towards the goals. Schriever Elementary strives to engage our families in learning with monthly activities such as our Falling for Good Character, Patriotic Picnic, and Turkey in Disguise project. In the month of December, we will host our Family Learning Night on December 12th with Kidz Boutique Santa Shop. Be on the look out for more information to come about our family night.

Important Dates to Remember

December 12th - Family Learning Night 6 PM

December 20th - January 2nd Christmas Holidays

Educationally Yours,
Miranda Babin, Principal

Each and every student at Schriever Elementary will strive for success in academics and behavior.

Safety is a top priority! Throughout the school year, we conduct drills in order to prepare our school community for different crisis situations. Fire drills, Lockdowns, Shelter in Place, and Tornado drills are among the drills practiced. In the event of an early dismissal or emergency, a JCALL/message will be sent communicating to parents what to expect, for example; where to pick up students or when to expect students to arrive at home on bus. It is important to keep contact information up to date with our office.

PTC NEWS

I. Book Bingo with Grandparents Event
November 30th at 5 PM.

Home School Connections

All students may log in to Google using Clever at home to access ZEARN and IXL. Students in grades 1-3 may utilize these platforms at home to increase proficiency in math skills. IXL also provides additional practice in reading and science skills. Third grade students may work on Achieve 3000 at home to build literacy skills.

LEAP 2025 Testing Information

Practice tools and practice test can be found on <https://wbte.drcredirect.com/LA/portals/la>

The math assessment may include problems that require students to use multiple operations in one problem.

Example:

Jean was unboxing some old winter clothes. She found four boxes of clothing. Inside each box there were three scarves and six mittens. How many pieces of clothing does Jean have total?

Solution: $4 \times (3 + 6) = ?$

$4 \times 9 = 36$

Jean has 36 pieces of clothing in all.
